THE WASHINGTON CRITIC, Washington, D. C. RICHARD H. SYLVESTER, . - Editor

The interrogatories addressed by the Personal Liberty party of New York to Personal Liberty party of New York to candidates for the Legislature are those: Are you in favor of a modification of the present Exche and Sunlay Jaws! Are you in favor of the passage of a seneral law permitting the sale on Sundays of light

sines and mail beverages?
Are you in favor of the passage of a law per-uting the sale on Sandays of right wines and call beverages in oties of 10,000 inhabitants

ing any other pertion of such day?
Are you in favor of the passage of a law per
mitting the opening on Sundays to the unble
of art galleries, measures and libraries?
Are you in favor of secolar music on Sundays in public parks, squares, gardens of
kells.

There are many persons in both of the old parties—many even in the Problidition party—who can answer two at least of these questions in the affirmative, but a negative reply to the It is not the object of the Personal

Liberty party to make the opening of art galleries and libraries, or music in the parks an independent issue, or an issue at all, excepting so far as these innovations can be made auxiliary to the main purpose of the movement.

The two latter interrogatories are thrown into the catechism as mere catch-weights.

Could a popular vote behad on them all it would doubtless show a steadily growing antagonism to the Sunday liquor traffic on the one hand, and a gradually increasing tendency towards the opening of libraries, gardens and art galleries on the other. But they do not belong together. There is not much of a sympathetic relation between them

tween them.

The chief aim of the Personal Liberty party is to obtain legislative consent to the Sunday saloon. This being ac-complished, the Sunday library or museum would become a secondary consideration. It would prove rather a disadvantage than an advantage to the retail liquor business. But there is no party in New York

or elsewhere that can afford to take the responsibility of retrogressive legislation in this matter. No party can safely countenance any step that shall tend to undo or create a necessity for doing over what has already been done towards the regulation of the liquor traffic. Whether it be right or wrong, the drift of public sentiment

runs strongly the other way.
It does not follow that Democrats or Republicans should commit themselves absolutely to the principle of prohibi-tion, about which there are honest dif-ferences of opinion, nor fall into the rut of a puritante sabbatarianism, out of which free thought is happliy evolv-ing itself; but of one thing they can rest assured, the great majority of the people of this country, and a majority that is bound to assert itself, have come to the fixed and immovable conclusion that an indiscriminate liquor traffic on Sunday or between any certain hours on Sunday, shall never be made legiti-mate by law.

Where the saloons have been closed on that day they will stay closed. Where they are still open it is but a question of time when they will be shut. There is this much of a reverence for Sunday among the American people that will not be surrendered.

THE Republicans of New York, at their county convention last evening, decided to place De Lancey Nicoll and Randolph B. Martine on their judicial ticket-Mr. Nicoll as candidate for District Attorney and Mr. Martine for Judge of the new Court of General Sessions—and the World is correspond-ingly happy. Mr. Nicoli accepted the nomination as a Democrat, against Mr. Fellows, the regular Democratic candidate, on condition that Mr. Martine, also a Democratic candidate, was indersed by the Republican convention A resolution that it would not be to the advantage of the Republican State ticket to inderse any Democratic candidate for a local office, was laid on the table by a vote of 203 to 32. The World, having gained its point, now advises Mr. Fellows to withdraw, order to save himself from a l defeat. The Herald says that the Nicoll movement is designed by its authors to break down the unity of the Democratic party. The San says that all people who "believe in fair play and hate bossism" will vote for Fellows. The Mugwumps will vote for Nicoll." The Star speaks of Mr. Nicoll as "stretched to distortion, stuffed to distension, sunk to dishonor, and sold to disgrace." The *Times* and *Tribuse* approve the action of the con Independent polities seems to be growing in fashion, notwithstanding the strange bedfellows it makes.

That the track at Ivy City is one of he best, if not the best, in the country was demonstrated yesterday when, af-ter hours of hard raining, the six-furlong dash was won by Stuyvesant, with 116 pounds, in 1:15;; the Arlington Stakes for two year-olds by Raceland in 1/141, and the Autumnal Handicap. 14 miles, by Volante, with 122 pounds, in 2:094. Better time was never made at Ivy City with a dry track. It faster time than that made at Jero It is Park, and as good as that made at Brooklyn, Sheepshead and Monmouth. Yesterday's racing has placed the Na-Yesterday's racing has parallity with tional Jockey Club on an equality with the older racing organizations. The fast time also demonstrates that the

races are being run on their merits. Every winner was pushed. That despite such weather several thousand persons, including two hundred ladies, went out to see the sport, indicates the deep local interest in the meetings of the club. It is to be being suniter days will be granted for the balance of the meeting, which will then become what it promised—the best in the bistory of the club.

SENATOR ALLISON IS too smart a man o allow himself to be tangled up by an interviewer on the Fishery question a this stage of the game. He was asked about it the other day, and, of course, replied to his interrogator with the utmost suavity. He said that the matter would occupy the attention of Congress in some form, which it undoubterly will. As to a reciprocity treaty, if a treaty should be negotiated between the United States and Canada, that would end all existing disputes, which is also a tolerably safe thing to say. He had not made up his mind as to the wiedom of such a policy, but it had numerous advocates, and they would make a very respectable showing in favor of commercial union. The Senator answered all the questions that were put to him, and expressed some very decided opinions, but it will be seen that he said nothing which is likely o rise up in judgment against him. Mr. Alltson is not built that way.

Ms. CLEVELAND'S Thanksgiving Proclamation is a well conceived and happily worded document. There is perhaps, a little more of it than uscossary, but some allowance must be made for the President's own emotions of gratitude at having swing round the horse-shoe so successfully. He has much to be thankful for. Few men have had luckler deliverance out of more complicated difficulties.

In answer to The Chirie's suggestion that the new half be called "Columbia Hall," the Post remarks: Wouldn't "American Spread-Eagle Hall" be better? It sounds a little more raw. Our esteemed contemporary should

accompany its jokes with an explanatory diagram.

THE Chicago Inter Ocean protests with righteous vehemence against handling the city over to the clutches of the proposed Gas Trust. It would have the city make its own gas as the only safeguard against a threatened monopoly. If water, why not light Our esteemed contemporary reasoneth

COLONEL FRED. GRANT Says It's much easier to handle a surplus than a deficit. There's nothing particularly new or hard to understand about that. A deficit has no handle. That's the reason so many poor fellows, when they once get broke, find it so hard to catch on again.

THE Jersey heifer which Mr. Childs presented to Mrs. Cleveland some time ago is doing nicely and they say out at Oak View that she is going to make "a jewel of a cow." May her lapidairy value pan out to the full measure of their expectations.
